

ELECTRICAL PRE-APPRENTICESHIP

STUDENT AND GUARDIAN INFORMATION SESSION

An exciting opportunity for students in the Class of 2022!

What is it? – A 200-hour electrical trade career readiness program providing classroom instruction, and hands-on training for high school students to enter an electrical apprenticeship and employment into the electrical trade.

What are the benefits? – Students gain entry into hands-on apprenticeship training (tuition free!); Earn two national certifications; Job coaching and placement assistance upon completion of the program.

Who is a good candidate? – Construction work is both physical and mental labor. Successful candidates are self-motivated, like to work with their hands, have strong math skills, and enjoy working in changing environments both indoors and outside. **No prior experience is necessary!**

Application will be open to current juniors (Class of 2022)

Program begins 2nd semester of your senior year

Must be 18 years old by August 1, 2022

Must have availability in your class schedule

Must have a driver's license by graduation 2022

Parents and Students:
